RESOLUTION
(By Aldermen Rendell, Hawley, Ryan, Currie and Ekberg)

On the death of William Henry Eustis.

Resolved by the City Council of the City of Minneapolis:

William Henry Eustis, philanthropist, lawyer, builder and former Mayor of Minneapolis, died in the eighty-third year of his life at his residence in Minneapolis on the 29th day of November, A.D. 1928, leaving a record richly blazoned with deeds of unselfish generosity and useful achievement for Minneapolis, his home for 47 years.

Mr. Eustis was born at Oxbow, Lawrence County, New York, on the 17th day of July, 1845. He was an intellectual and highly gifted youth, and his vigorous mental faculties were trained and developed in the district school, in Wesleyan University, and in Columbia Law School, from whence he was graduated in 1874. He immediately took up and followed the study of the law. In 1881 he moved to Minneapolis, at once recognizing the opportunity presented in the then growing city, and reinforced by courage and ability, he had the disposition to embrace it and to fully meet all its requirements and responsibilities.

He entered upon a career that was to develop into magnificent proportions and to show itself rich in capacity and of the noblest and highest character. He soon became noted as one of the ablest, most prominent and most eloquent members of the bar. Though absorbed in his profession and ever a busy lawyer, he nevertheless always kept in touch with public affairs, and he was always ready to lead and to guide the impulse and heart of the people in their aspirations for relief and reform.

After serving one term as Mayor of Minneapolis, from 1892 to 1894, he again resumed his calling as a lawyer, with more success and greater vigor than ever before. Nature endowed him with an intellect of the highest order. His was a life that was full of activity. He was always reticent and retiring in a personal way, made so, perhaps, by his physical infirmities. With him convictions were sacred, and that he had the courage of his convictions his public acts and deeds amply testified. His manner, although dignified, was pleasant and agreeable. He was a man of strong personality—a natural leader of men—and the magnetic influence of his noble character attracted to him men from all walks of life. As Mayor of the City of Minneapolis his high conception of the nature and function of the law was reflected in his peaceful, frugal and just administration. Amiable, accessible, but vigilant, he fulfilled his duties with fidelity, and demanded equal fidelity and honesty from others. His whole private life was noted for its stoic simplicity. He was one of the original incorporators of the Soo Railway and North American Telegraph Companies. Largely through his personal efforts Minneapolis was able to obtain the Republican national convention in the year 1892.

The society that charmed him most was the fine and extensive collection of books in his library. Here he felt thoroughly at home and was never lonesome. His books were a part of his life. Here he loved to meet his friends and to converse with them on literature, history and affairs of state, and to introduce them to his mute companions. His patriotism was of the loftiest and purest kind. He loved his country because it was noble and just, and because it was the home of liberty, tempered with law, wholesome, pure and untarnished.

He loved little children and they understood and loved him in return. They were drawn to him by that subtle fascination that only the gentle gentleman can exercise and the genuinely kindly-hearted man can maintain. Man may be imposed upon by false friendships, but the little ones possess a God-given intuition that enables them to pierce the mask of hypocrisy and read the soul. If the spirits of the departed know the things of earth, as we believe they do, the flowers contributed by his little friends offered the sweetest pleasure of all the floral tributes that were given in his remembrance.

The public benefactions of Mr. Eustis in behalf of and for the aid of crippled children total a money value of more than two million dollars, including gifts to the University of Minnesota and to this City. All of them were for the benefit of crippled children. In announcing this great gift, he did so in the following few words:

"I am going to give crippled children a chance to start life even with the rest of the children. I want them to have a better chance than I had. For many years I have wanted to do something for the crippled children. You have seen them—little folks who haven't a chance to be anything in life unless someone helps them."

He stipulated that the trust should not carry his name, since the name of the donor would, in a generation or two at the most, be forgotten, and suggested the name, "Minnesota Hospital and Home for Crippled Children."

The good which he wrought in the closing months of his life—and it was a great good—is a guide and inspiration to the noble, charitable and unselfish things of life, and will constitute a landmark in our history that will remain imperishable.

The name of William Henry Eustis will be dear to the hearts of the people. It will remain forever preserved as a part of the history of this State and City. His death is sincerely mourned by the people of the City of Minneapolis, with whom he had lived so long and whom he had loved so well, and had so honorably and ably represented in public life. We mourn his departure and honor his memory, as we honored, loved and respected him in life.

With tender hands we have consigned his dust to earth, and we realize that a man of lofty character, sublime love and dauntless cour-

age has gone from us; but the influence of his life and character still lives in the hearts of his fellowmen, and it has added to the great stream of mighty influence and force in its effect on the character and lives of our citizens. A true man, a kind friend, a ripe scholar and a noble citizen has passed away.

Now, therefore, be it resolved by the City Council of the City of Minneapolis that this resolution be printed in the Official Proceedings of this body, and that a suitable copy of same be sent by the City Clerk to the immediate relatives of our departed friend and citizen.

From His Honor, George E. Leach, Mayor—

I am returning the attached proposed ordinance "Relative to fireworks and the discharge of firearms within the City limits" unsigned, because in my judgment this would prohibit—

1. The firing of salutes over the graves of soldiers on Memorial Day, or at any other time, such as at burials, et cetera.

2. The firing of salutes by the National Guard as prescribed in army regulations.

Aside from the above criticism, I think the purpose of the ordinance is a desirable one.

GEORGE E. LEACH,
Mayor.

Alderman Currie moved that the ordinance be referred back to the Committee on Ordinances and Legislation and the City Attorney.

Adopted.

REPORTS OF SPECIAL AND JOINT COMMITTEES

From the Joint Committee on Fire Prevention and Ordinances and Legislation—

Your Committee to whom was referred on August 10, 1928, an ordinance establishing a Bureau of Fire Prevention in the Fire Department of the City of Minneapolis, respectfully report and recommend as follows:

That at a public hearing by said Joint Committee held August 15th, 1928, a sub-committee was appointed

to work in conjunction with representatives of all interested Civic Organizations in the City of Minneapolis; to receive criticisms and suggestions relative to a satisfactory and effective ordinance, and to submit a revised draft to this committee.

After a series of meetings of this sub-committee a revised draft was submitted to your joint committee at its meeting of January 31st, 1929, at which time further hearing was hedl with the various interested groups. Your committee believes that in the interest of public satety and municipal economy, an effectively functioning Fire Prevention Bureau is essential. The elimination or reduction of actual and potential fire hazards in this City by a competent staff acting by authority of and under the complete jurisdiction of the City Council is a certain means of saving life and property and of effecting lower insurance costs to property owners and to the City itself by tending to depress basis rates as well as individual rates of insurance.

Further, the reductions in hazards in our opinion will result in reductions in numb rs of fires to the extent that the burden on the tax payer for current maintenance expense for fire department purposes in the City of Minneapolis will not be subject to undue increases by reason of demands for increased fire fighting personnel.

We desire to further report that budget allowances and the extent of existing personnel in the Fire Department are thoroughly adequate to serve the needs of a Fire Prevention Bureau in that department and that no additional costs are incurred or contemplated in the establishment and operation of such a Fire Prevention agency.

We recommend that the accompanying ordinance establishing a Bureau of Fire Prevention in the Fire Department of the City of Minneapolis be passed.

M. U. S Kjorlaug, chairman, John Peterson, A. R. Gisslen, J. R. Sheffield, D. Blomberg, Geo. Guider.

Of a Resolution passed by the City Council of the City of Minneapolis, Minnesota, at an Adjourned Session of the Regular Meeting of February 8, 1929, held February 15, 1929.

(Published February 19, 1929, in The Minneapolis Star.)

RESOLUTION
(By Alderman Chase)

Calling for a public hearing in protest against the present discrimination against the cities of the first class on account of gasoline and automobile registration taxes.

Whereas, Minneapolis, St. Paul and Duluth provide one-third of the funds furnished for trunk highway construction and maintenance, no part of which funds under present practice are permitted to be used on the trunk highways within the corporate limits of either of said cities; and

Whereas, It has been proposed recently to organize a state wide drive to pave the unpaved portions of the trunk highway system at enormous expense and to issue state highway bonds therefor, to be paid by increased gasoline and vehicle taxes, thus adding tremendously to the gross injustice already imposed on said three cities, since they would be compelled to pay one-third of the increase without being allowed to participate in any of the benefits; and

Whereas, By reason of the Constitutional Amendment recently adopted, one-third of the gasoline taxes have been diverted to improve township roads, entirely outside of said cities; and

Whereas, being opposed:

A—To the present discrimination against said cities;

B—To Minneapolis providing approximately five million dollars annually to be expended wholly outside of the city;

C—To the three cities providing one-third of state trunk highway funds, and being denied any participation therein;

D—To the three cities providing one-third of the funds for the upkeep of 7,000 miles of trunk highway while being denied the upkeep of the comparatively insignificant mileage within their corporate limits;

E—To imposing on fronting property owners the burden of building and maintaining trunk highways in said three cities (only) to be pounded and worn by state trunk highway traffic;

F—To the practice of using the money, provided in large part by said three cities, in constructing and maintaining trunk highways within all other trunk highway cities in the state and reimbursing said outside cities for all they have spent since 1919—while refusing to spend one dollar in either of said three cities or to reimburse them for any expenditures whatsoever.

Therefore, Be It Resolved, BY THE CITY COUNCIL OF THE CITY OF MINNEAPOLIS: That the Special City Council Committee on Legislation hold a public meeting at the call of the Chairman, in order to crystalize public sentiment, prepare plans, provide ways and means in order:

1—To oppose to the utmost any additional issue of state highway bonds, and any increase of automobile or gasoline taxes, unless and until the discrimination now practiced against the three cities specified is wholly eliminated;

2—To oppose, except as a last resort, any plan or scheme whatsoever, tending to align country against city, create factionalism or promote sectionalism, which must be the inevitable result, if such discrimination is persisted in;

3—To co-operate with other interests and organizations in said cities, to bring to the attention of the people throughout the state, the inequitable and intolerable practices in the matters referred to, hoping thereby to compel fair treatment for the three cities named.

Passed February 15, 1929. John Ryan, President of the Council.

Approved February 18, 1929. George E. Leach, Mayor.

Attest: Chas. C. Swanson, City Clerk.

PETITIONS AND COMMUNICATIONS

Alderman John Peterson—Report of conference with the Executive Committee of the Mississippi Valley Shippers Association, held in Chicago, March 8, 1929, for the purpose of considering an appeal from Major Hall's second adverse report on the nine-foot channel in the Upper Mississippi River.

Alderman Peterson moved that the report be published in the proceedings of the City Council.

Adopted.

Following is the report referred to:

Your Chairman of the Committee on Commerce, Markets and Harbors, upon an invitation by George C. Lambert, Chairman of the Executive Committee of the Mississippi Valley Shippers Association, attended a conference in Chicago, March 8, 1929, held for the purpose of considering an appeal from Major Charles L. Hall's second adverse report on the nine-foot channel in the Upper Mississippi River.

Among those present were George G. Lambert of St. Paul, Chairman; Mr Herman Mueller, Traffic Director, St. Paul Association; R. D. Warner, Vice President of the Mississippi Valley Association, also of St. Paul; Theodore Brent of New Orleans, Traffic Expert of the Mississippi Valley Association; William Allen, New Orleans; Colonel Robert Isham Randolph of Chicago, Consulting Engineer of the Mississippi Valley Association; Lachland Macdeay, Secretary of the Mississippi Valley Association; Mr. H. A. Feltus of the St Anthony and Dakota Grain Elevator Company, Minneapolis; F. B. Townsend of the Minneapolis Traffic Association; A. C. Wiprud, Attorney for the Minneapolis Shippers; A. C. Godward, Engineer for the Minneapolis Committee, and your Chairman of the Committee on Commerce, Markets and Harbors.

Major Hall's report was gone over, item by item, and fully discussed as to the merits and demerits of its contents. Upon final analysis by the members of the conference, it was agreed that the report must be met by fact both in regard to the original cost of the nine-foot channel project, and the potential tonnage available for shipment when the project is completed, and relative cost per ton on freight carried on a six-foot channel and on a nine-foot channel, as well as the possibility of doubling the tonnage when the nine-foot channel is an assured fact.

In order to prove our case before the Engineering Board at Washington, D. C., that is that the nine-foot channel project is economically sound from the view point of Waterways Transportation, it was agreed to call upon shippers who represent large concerns to testify before the Engineers, Mr. Markwood, President of the Franklin County Coal Company of Illinois, W. K. Kavanaugh, Peoples Coal Company of St. Louis, and Captain Richardson of Paducah, Ky., Coal Co., among the steel manufacturers, Mr. Shepherd and Mr. Maslen of the Johns and Laughlin Steel Corporation, iron ore, Mr. Frank A. Wildes, Superintendent of Mines, State of Minnesota, and M. D. Curran, President of St. Louis Gas and Coke Corporation, Southern Lumbermen have promised to testify before the Board and numerous manufacturers and shippers in the Mississippi Valley. The potential shipment of oil on the Barge Line was assigned to the City Engineer of Minneapolis, and the City Engineer of St. Paul. This data was to be presented to Colonel Lambert, who will compile the data.

The Conference concluded its business by directing the Chairman, Colonel Lambert, to ask General Edgar Jadwin for a hearing on Major Hall's adverse report, on April 23, 1929, at Washington, D. C.

Respectfully submitted,
(Signed) John Peterson.

Whereas your Committee held a public hearing on the employment conditions now present in the construction of the Northwestern National Bank in connection with the Donaldson Building, and

Whereas it appears from the testimony submitted at said hearing, that the wages of 30c and 35c per hour are being paid for common labor on said job, and

Whereas such wages create poverty and are conducive of undesirable social conditions to the detriment of the City of Minneapolis,

Now therefore, it is recommended that the Northwestern National Bank together with Rose Brothers, Haglin & Sons and the representatives of organized labor meet and come to an agreement providing for a revision and adjustment of the terms of the contract under which said building is being so constructed so that an equitable wage can be paid all persons employed in the construction of said building. From the Standing Committee on Paving—

The City Engineer reports that in paving ordered on Bloomington avenue, from East 40th street to Minnehaha boulevard (Special Improvement of Existing Street No. 1715), on account of the marsh lying between 40th street and half way between 42nd and 43rd streets, it will be impossible to maintain said paving at the proper grade on account of the settlement which will take place, and recommends that this part of the street be paved with 2-inch asphaltic concrete laid on a 5-inch rolled stone base, as this will be easier to repair than the brick paving on a concrete base. Sidney Benson, W. H. Rendell, Josiah H. Chase, A. B. Fruen, Geo. Guider, Committee.

Alderman Benson offered a resolution, as per above report, directing the construction of water mains on certain streets and avenues in the City of Minneapolis. (See Resolution.)

Adopted—Yeas, 23; nays, none, as follows: Yeas — Aldermen O'Brien, Hawley, Chase, Meagher, Fruen, Currie, Brown, Rosander, Peterson, Bastis, Turner, Swanson, Rendell, Sheffield, Pearson, Gisslen, Guider, Benson Johnson, Blomberg, Kjorlaug, Robb, President Ryan—23.

From the Standing Committee on Water Works—

Your Committee to whom was referred communication from Dan C. Brown, City Comptroller, stating he thought his office should make a full and complete checking of the Water Department revenue for the years 1927 and 1928 and up to date in 1929, which work would require the engaging of two additional clerks, and the cost would be about $1,000, and that the Comptroller's appropriation was not sufficient to pay for this requisition, respectfully report and recommend that the City Comptroller make a check of the Water Department revenue for the years 1927, 1928 and 1929 to date, the cost not to exceed $1,000.00 be paid out of the Water Works Fund.

Sidney Benson, W. H. Rendell, Geo. Guider, A. B. Fruen, Committee.

Adopted.

From the Standing Committee on Water Works—

Your Committee to whom was referred the matter of protest of property owners on Girard avenue north, between 47th avenue north and 49th avenue north, against assessment for water main laid in 1927, respectfully report that, inasmuch as this main was ordered in May, 1927, and that owing to the closing of 47th avenue north by a larger distribution main under construction, the Water Department for its own convenience deferred the laying of the main in Girard avenue until December, and on account of the local conditions and the weather the cost of the work was thereby increased above the usual cost under summer conditions, we respectfully recommend that the cost of laying be based upon the cost of similar work during the working season, which according to the cost records on file in the office of the City Engineer is 57 cents less per frontage foot than the actual cost of laying this main, and that this amount be deducted from the assessment rate per foot and the resolution presented herewith be passed.

Sidney Benson, W. H. Rendell, Josiah H. Chase, A. B. Fruen, Geo. Guider, Committee.

Alderman Benson offered a resolution, as per above report, annulling excess assessments for water main in the tax of 1928 in certain streets and avenues in the City of Minneapolis. (See Resolution.)

From the Standing Committee on Ways and Means—

Your Committee to whom were referred bids received by the Purchasing Agent on the printing of supplement to the City Charter and Ordinances covering the years 1926, 1927 and 1928, respectfully report and recommend that the bid of the Pioneer Printers, of $272.50, lot price, addition of $1.25 for each page over 200 pages, deduction of $1.25 for each page under 200 pages, 3c per line for corrections, be accepted, this being the low bid and recommended by the Purchasing Agent.

From the Standing Committee on Police—

Your Committee upon request of the Superintendent of Police to purchase for the use of the Mayor a

certain second-hand Packard Car, decided not to buy this particular car, but to advertise for bids for second hand cars, and then decide whether this car or another would be the best for the money.

At a subsequent meeting of the Committee it appeared obvious to the Superintendent of Police, as well as the Committee, that the particular car recommended for purchase without bids by the Superintendent of Police was the poorest of the lot and had been through two fires.

At a still later meeting the Superintendent of Police requested the Committee to go no further in the matter of purchase of a car for the Mayor. He made no explanation, except to say they could get along without a new car. At the last meeting of your Committee, upon checking into the matter, it developed that the Superintendent of Police had arranged to turn over to the use of the Mayor one of the new Gardner cars purchased ostensibly for the Gunsquad work. The Committee's judgment, after inquiring carefully into the matter was that if any car were purchased for the Mayor at this time, that bids should be taken on new cars and not on second hand cars, inasmuch as the extra cost would probably run not over $150.00 to $200.00.

Your Committee believes that the Police Department has broken faith with the Committee and the City Council in requesting purchase of six new cars for the gunsquad purposes represented as sorely needed by the department for this specific purpose and later diverting one of these gunsquad cars to the use which the City Council did not intend at the time it purchased said cars.

It is recommended that bids submitted for the purchase of a second hand car for the Mayor, be rejected.
